Alexandria, VA 22313-1450

Dear Sir:

The assignee, Boston Scientific Scimed, Inc. (formerly known as Scimed Life Systems, Inc.), is the owner of all rights, title, and interest to the above-identified application (hereinafter, the "immediate application") pursuant to an assignment recorded in the Patent and Trademark Office to Boston Scientific Scimed, Inc. on June 16, 2005 at Reel 016151, Frame 0408.

The evidentiary documents have been reviewed, and, as of the signing of this Terminal Disclaimer, to the best of assignee's and the undersigned's knowledge and belief, Boston Scientific Scimed, Inc. is still the owner of all such rights, title, and interest. Boston Scientific Scimed, Inc. hereby disclaims, except as provided below, the terminal part of any patent granted on the above-identified application that would extend beyond the expiration date of U.S. Patent No. 7,195,629 and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that it and

said patent granted on the U.S. Patent No. 7,195,629 are commonly owned. This agreement is to run with any patent granted on the instant application and is binding upon the grantee, its successors, and/or assigns.

In making the above disclaimer, Boston Scientific Scimed, Inc. does not disclaim the terminal part of any patent granted on the above-identified application that would extend to the expiration date of the full statutory term of U.S. Patent No. 7,195,629, in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR 1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term as presently shortened by any terminal disclaimer.

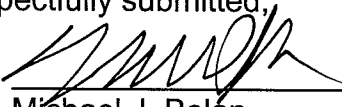

I, Michael J. Bolan of the law firm of Vista IP Law Group LLP, represent that I am a representative authorized to make this disclaimer on behalf of Boston Scientific Scimed, Inc.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements are made with knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Dated: September 12, 2007

Respectfully submitted,

By:
